¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.

¹ Gross State Product, U.S. Bureau of Economic Analysis, 2004. Gross State Product for the United States equals sum of Gross State Product in all States.

NOTE: These estimates represent spending in the state where the provider of a service is located. Because spending based on provider location does not accurately reflect health spending on behalf of persons residing in a state, per capita estimates are not presented here, but will be presented in a future report.
